

**20th ANNUAL INTERNATIONAL ATAXIA AWARENESS DAY
EryDel is supporting NAF and all A-T Associations to spread the word!**

International Ataxia Awareness Day (IAAD) is celebrated on September 25th every year as an effort from Ataxia organizations and individuals to spread awareness about the disease and inspire action towards a cure. Talking about Ataxia with others is a first step to finding a cure.

Ataxia is a rare, progressive neurological disease. Degeneration in the brain gradually makes it difficult to walk and talk with symptoms that worsen over time.

More awareness will lead to more support for research!!!
